Welcome to edition one of our new newsletter.

Welcome to edition one of our new JSNA newsletter, updating you on how we are developing the JSNA to support the changing world of health and wellbeing commissioning in Norfolk. The JSNA has a direct link into the Health and Wellbeing Board and is required to be developed as the key evidence base to support the review and development of services in the county to address the health and wellbeing needs of the people of Norfolk. The newsletter will be produced on a quarterly basis and aligned with the Health and Wellbeing Board newsletters to allow us to align developments in the future.

NEW-LOOK ONLINE JSNA: Norfolk's online JSNA, embedded within the county's Local Information System (**Norfolk Insight**), is under development to make it easier for users to find the information they want and need. The new look pages will be rolled out over the next few months but we have started with the **demography overview page** and **2011 Census page** where users can find the new Census data which is being released over the next few months and the **Clinical Commissioning Group section**, which will provide Clinical Commissioning Groups with some useful products and information to support their developing commissioning.

WHAT WILL THE NEWSLETTERS PROVIDE?

- Featured new products being added to Norfolk's online JSNA
- Other key projects planned to enhance the content of the JSNA
- Latest updates to Norfolk Insight
- What's on the horizon products or new data coming soon

Visit Norfolk's online JSNA @ www.norfolkinsight.org.uk/jsna

During 2012/13 all general practices (GPs) across England are preparing to take on responsibility for commissioning the majority of healthcare for their local population by forming Clinical Commissioning Groups (CCGs). From April 2013, CCGs will commission health and care such as:

- Elective hospital care
- Rehabilitation care
- Urgent and emergency
- Most community health services
- Mental health and learning disability services

There are five emerging CCGs in Norfolk seeking authorisation - they are **Great Yarmouth and** Waveney, North Norfolk, Norwich, South Norfolk and West Norfolk. Follow the link below to download a map from Norfolk Insight which shows the CCG boundaries: **CCG Map**

Under the Health and Social Care Act 2012, CCGs have a key role in tackling and reducing health inequalities in their area through the services they commission. They are essential partners is making the JSNA and the Joint Health and Wellbeing Strategy (JHWS) a success, and they are required to use the JSNA and the JHWS to inform their commissioning decisions.

NEW ONLINE CCG SECTION: The

JSNA Manager is working with information teams in Public Health and the County Council to develop a number of products to support CCGs, both in their commissioning plans and the authorisation process. To this effect, a new CCG section within Norfolk's online JSNA has been developed. This section currently includes:

- · Health and Wellbeing Profiles
- Adult and Children Social Care Profiles
- Drug and Alcohol Profiles
- Sample Equality and Diversity profile
- 2011 Census Demography profiles

Clinical

The JSNA and Public Health teams will be working with the CCGs to identify what additional information they will require to build up content embedded within Norfolk's online JSNA.

Norfolk Insight is a public facing website containing a wide range of national and local data which can be downloaded or visualised online through maps, tables and charts. This tool will be of considerable help to the CCGs in providing easy access to a wide range of useful data and key resources.

FIND OUT MORE: Key online profiles such as National General Practice Profiles, Health Profiles, Community Mental Health Profiles, Local Alcohol Profiles and more have been collated and are accessible from the CCG page on Norfolk Insight under useful external links. More Info >>
